JOSIAH TURNER, Jr., EDITOR.

WALKING SIGNS OF CHARACTER.—Some observing person has given the following rules for judging a man by his walk:

Observing persons walk slow; their heads move alternately from side, while they occasionally stop and turn around.

Careful people lift their feet high and place them down, pick up some little obstruction and place it down quietly by the side of the way.

Calculating persons generally walk with their hands in their pockets and their heads slightly inclined.

Modest persons generally step softly for fear of being observed.

Timid persons often step off from the sidewalk on meeting another, and always go around a stone instead of stepping over it. Wide awake persons "toe out," and have a long swing of their arms, while their hands move about miscellaneously.

Careless persons are forever stubbing their toes.

Lazy persons scrape about loosely with their heels, and are first on one side of the walk and then on the other.

Very strong minded men place their toes directly in front of them, and have a kind of stamp movement.

Unstable persons walk slow and fast by turns.

Venturous persons try all roads, frequently climb the fence instead of going through the gate, and never lies down a bar.

One idea persons, and always very selfish ones, "toe in."

Cross persons are very apt to hit their knees together.

Good natured persons snap their finger and thumb every few steps.

Fun loving persons have a kind of jig movement.

STRANGE TRIBE OF INDIANS.—Professor Newberry, of Columbia College New York in a lecture in that city on Friday evening last on the "Colorado Plateau" thus spoke of a singular Indian tribe:

During the first part of the voyage up the river they became acquainted with a remarkable tribe of Indians, of gigantic size. They subsisted wholly on vegetable food. They tribe is known as the Mohavis, and probably number about 10,000. They seemed peaceful, playful, and those that the party employed as guides were eminently faithful and true to their word. The speaker described the habits of the people, their food, clothing, and modes of life generally at considerable length. The party remained among them a long time, and they found that these people, of all others, have not been corrupted by the Mexicans or Spaniards. They are doubtless fire worshipers, but exactly what their religion is it is hard to tell. They are copper colored, but not nearly so dark as most tribes. They have not high cheek bones, but round heads and full faces, are mild and quiet of disposition, very neat in their habits, and well dressed. If any litter was made upon the floor at luncheon time a lady well dressed came in with a dustpan and very carefully removed all the refuse. This, the speaker thought, was an indication certainly of their cleanly habits. They are situated in a desert country, and it is only by the utmost industry and economy that they are able to live. This tribe is located in the northeast corner of Arizona.

In the vales near Jordan, in the neighborhood of Jericho, not far from the Dead Sea, is found, growing in great abundance the vine of Sodom, a plant from the fields around that devoted city which produces grapes as bitter as gall, and wine as deadly as the poison of a serpent. This deleterious fruit is mentioned by Moses in terms which fully justify the assertion: "For their wine is of the vine of Sodom, and of the fields of Gomerral; their grapes are grapes of gall, their clusters are bitter, and the wine is the poison of dragons, and the cruel venom of asps." It is probably the wild vine, a species of gourd which produces the coloquintida, a fruit so excessively bitter that it cannot be eaten, and when given in medicine proves a powerful purgative. It seems there fore, to have been early, and not without reason, considered poisonous. It was of this wild vine the sons of the prophets ate, and its instantaneous effect, together with their knowledge of its violent action, easily accounts for their alarm. II Kings, iv. 39.

LOVELINESS.—It is not your neat dress, your expensive shawl, or your pretty fingers, that attract the attention of men of sense. They look beyond these. It is true loveliness of your nature that wins and continues to retain the affections of the heart. Young ladies sadly miss it who labor to improve their outward looks, while they bestow not a thought upon their minds. Fools may be won by gewgaws and fashionable showy dresses, but the wise and substantial are never caught by such traps. Let modesty be your dress. Use pleasant and agreeable language, and though you may not be courted by fop or sot, the good and truly great will love to linger in your steps.

A poor boy of thirteen years was taken sick in a New York boarding-house, and exhausted nearly all his means, so that he no longer paid for food, but lodging only. He paid his last quarter on Christmas night, when the woman told him he must go, but he was unable to move. Another lad pitied him and paid for Sunday night. The woman, thinking he would die, carried him out in the street, where he was found by a neighbor, who conveyed him to the Five points House of Industry. He was unable to stand, being faint from hunger, as he had eaten nothing since Friday morning, and during Christmas day he was suffering the agony of starvation, without a soul to minister to him in that city of wealth and plenty.

THE MAN THAT DON'T ADVERTISE.—The Waterloo *Courier* has the following flattering notice of the man that does not advertise:

The man who don't advertise has got his store hung around with slabs and pieces of barrel-heads inscribed with lampblack, "Irish Pertaters," "Korn Meal," "Power," "All kinds of Kountry produce," "Kalkes, and Kandles for sale hear." He says, 'thar ain't no sense in noospaper advertising, so long as a man is smart enuff to tend to his own biziness, and kin stand at the door and hollow the fellers in."

Providence is getting the foundation laid for her soldiers' monument, and will be dedicated July 4th, next.

KEROSENE LIGHTS PERFECTED!

DANFORD'S

Atmospheric

KEROSENE LAMP.

THE ONLY PERFECTLY SAFE LAMP IN USE.

Artificial Light, of some sort, is a universal necessity; a safe, cheap, and brilliant one is a luxury; a luxury, too, only enjoyed heretofore by those living in large towns or cities where Gas is used. Years of study and thousands of dollars annually have been spent by experiments of different kinds, in trying to invent and perfect a Burner or Lamp by which Coal Oil or Kerosene could be burned practicably, without the expense and trouble of chimneys; this long looked for and much desired subject has at last been obtained, and is styled the

ATMOSPHERIC KEROSENE LAMP!

Its adaptation to Dwellings, Churches, Railroads, Steamboats, Hotels, Stores, &c., is unsurpassed; in short, this invention brings the luxuries and brilliant Gas Light within the reach of all, whether in the City or Country. It gives the light of a six-foot Gas Burner, for less than one cent per hour, or double the quantity of light, of the ordinary chimney-lamp with one third less oil; will burn, when turned down to a taper light ten hours for one cent; is free from smoke or smell; can be carried from room to room; the wind will not blow it out.

This Lamp is destined to supersede all portable artificial light or chimney lamps now in use and needs only to be seen to be appreciated; thousand of them will find ready sale in every county, no family that uses this light for one evening will again be annoyed with the chimney-lamps. Thousands of them will be used in cities, as this light is one-half cheaper than Coal Gas, and much more pleasant to the eye.

The sole right for the sale of this Lamp can be had for the entire State or the same will be sold by Counties.

Parties purchasing will be supplied, at wholesale, with the lamp and fixtures at reasonable rates.

Immediate application should be made to secure the choice of Counties.

The Lamp can be seen in full operation durning the day and evening at the Yarborough House.

All letters will receive prompt attention and full explanation of the Lamp given.

SAW MILLS.

I AM PREPARED TO PUT UP DOUBLE CIRcle Saw Mills in workmanlike manner for those desiring them.

There are now 400 of these Mills in operation, and in no case have they failed to give entire satisfaction. One advantage of this Mill is, that the sawyer, without changing his position, gives the backward and forward motion to the carriage, with a single lever; and set the log at both ends at the same time, *this is a saving of one hand in the mill.* This is no humbug. I am responsible for what I say. My residence is 20 miles South of Raleigh, on Neal's Creek. For further particulars address me at Raleigh, N. C.

F. J. WRAY.

I will be at Lynn Adams' Store on the 2-4 to the 5th of February, where persons desiring to see me will please call.

READ THE FOLLOWING.

Mr. F. J. Wray, Dear Sir:—I am much pleased with my double Circular Saw Mill, built by you. I can cut a log 14 in. hee deep, 20 feet long, in 45 seconds, with my 12 feet overshot wheel. We have to-day cut 3,000 feet weather-boarding, flooring, and iron board, in eight hours.

Dec 23rd 1869. AL. RIDGE PARTIN.

Mr. F. J. Wray:—We are well pleased with our new double action Mill, that you set to work for us. We can cut twice the amount of lumber that we could with the old Mill of 42 inch saw and same water wheel.

P. YATES.
JAMES PENNY.

This last mentioned Mill may be seen on Walnut Creek, 5 miles South of Raleigh.

OUR FINANCIAL PROSPECTS.

The seven wise men of Gotham, who went to sea in a bowl, were shrewd mariners and perfectly secure from storm and shipwreck, compared to the seven wise men of this State, Holden, Caldwell, Jenkins, Menninger, Adams, Ashley and Harris, who have ventured out on the sea of finance, with apparently less knowledge of the navigation of its waters, than navigators of the last century had of the winds and tides of the Antarctic ocean.

If failure be an evidence of want of wisdom and ability in an enterprise, certainly no set of men upon earth ever exhibited a more plentiful want of those qualities than has been exhibited by the men who have had the management of the financial affairs of this State, for the last two years. It would almost seem (as has frequently been charged) that instead of managing the financial operations of the State for the promotion of her industrial and educational advancement, the aim has been to shape every financial movement so as to benefit and advance private and individual interests, if not to divert entirely the State finances to the promotion, primarily, of private enterprises.

It is unnecessary here to advert to facts that are patent to every observer, to show the utter failure of the financial operations of the State. A heavy burden of taxation was laid upon the people at a time they were least able to bear it; yet the amount so injudiciously dragged from them is exhausted, and no one seems to know how or where it has gone. It is very certain the people have had no satisfactory explanation of the matter.

The present Legislature, at its first session, went wild on the subject of Railroad appropriations. Millions on millions of bonds were issued, and the burden of taxation increased to pay the interest on them. Such a bulk of debt, contracted with such slim present resources to meet it, and doubtful future ability, was as unwise as it was hazardous. The effects of such wild, reckless, and improvident legislation are being fully developed; so much so, that the Legislature appears ready "to go back on itself," and undo, as far as possible, what was so badly done in this direction.

But it was not alone the heavy strain brought to bear on the State credit, by the wild and imprudent appropriation bills passed by the Legislature, that has had the depressing tendency on her bonds and her finances generally; but this state of things has been owing in a very great degree to the after, management; the unskilful and stupid, (not to say fraudulent and dishonest,) manipulation and application of "promises to pay" that the State had put upon the markets. No one, in short, could have any confidence in bonds or obligations created as ours were, and placed, without a shadow of security, into the hands of such men as our bonds were.

The present Radical administration appeared to feel, and really did act, when it came into power, like a boy, with a pocket full of money and without any restraint, turned loose in a candy shop. They seemed to think the financial resources of the State were exhaustless, and that they were released from all accountability to God or the people for the manner in which they used them.

The financial Solomons of the State have verbured out in their bowl; the winds and waves have swept them beyond their depth, and out of reach of shore, and they don't know what to do. They seem at present to be trying to paddle back, but the chances are a hundred to one that they will be swamped before they touch land. It is reasonable to say that the work of passing the appropriation bills, and arguing other financial schemes in the Legislature, together with the time consumed in trying to undo and get out of the scrapes and dilemmas that the passing of them has brought them into, will cost the State one hundred thousand dollars, to say nothing of the loss of money and credit consequent upon their puerile performances.

But what are the future prospects? The Treasury is empty, except the three hundred thousand dollars of special tax unappropriated, and that, we have no doubt, will be turned over to the general fund and swept away by the expenses of the present General Assembly. Then where is the money to come from to keep up the Asylums, pay Judges, Solicitors, Executive officers; Furriss and Friday Jones for keeping and guarding the Capitol, and to meet the ice bills and $76,000 *"contingent"* expenses, until the next ingathering of taxes? We think it will take better financial skill than has been exhibited by our financiers, heretofore, to answer the question satisfactorily.

It is plain from all the facts, that our present State officials are incompetent to perform the duties of their positions.—Even admitting that there has been no fraud nor willful mismanagement, (which we by no means do,) yet results show that the men now in power in the State are not the right men in the right place. The people see this and are determined to have a change; they may be bettered, but can not be worsted. It will, however, be a difficult task to remedy the evils that have been brought upon us, let who will undertake it.

COMING EVENTS CAST THEIR SHADOWS BEFORE.

The *Standard* of yesterday morning had an article on the subject of the special tax money now in the Treasury, the drift of which was hard to catch. We concluded, however, that as the "hands" had become obstreperous lately and disregarded the crack of the *Standard's* lash, the article alluded to was intended to head them off in getting hold of that three hundred thousand dollars of special tax money in the Treasury, as a punishment on them for their obduracy.

But we heard, later in the day, that there is a project on foot, (instituted by the Ring,) to test the validity of the resolution passed by the Legislature, forbidding the Treasurer to pay any more of the interest on the special tax bonds. This will open up the whole question of the constitutionality of the bonds, and we are anxious to see the matter tested.

We have always thought it would come to this, but did not expect it so soon, nor from the source that rumor charges this movement to.

DOCTORS DISAGREE.

Doctor Sheffner and Doctor Sinclair, and the other medico-political prescribers for a society diseased, thought that nothing would prove so apt a remedy for ills complained of, as a military pill. Doctor Dewerse, as will be seen from the following letter to Mr. Gunter, which we copy from the *Standard*, thinks the remedy a very doubtful and a very dangerous one. Perhaps it was that "stuffing of ballot boxes and usurpation at elections," that influenced the friends of the measure to urge it so strenuously

But to the letter:

WASHINGTON, D. C., Jan. 23, 1870.

W. T. GUNTER, Esq.,
Raleigh, N. C.,

MY DEAR SIR:—I was glad to note your manly course on the Militia Bill. I have noticed the workings of State militia in Tennessee and Missouri all my life. They came near ruining both States, and I warn you that unless carefully guarded they will do the same thing for North Carolina.—They soon become mere tools in the hands of politicians and instead of being of use to the State, become stuffers of ballot boxes and usurpations at elections. I fear for the worst.

Truly yours,
J. T. DEWEESE.

THE VIRGINIA LEGISLATURE.

The Richmond *Dispatch*, speaking of the assembling of the Legislature of Virginia next Tuesday, says:

"The occasion will be quite interesting. There are important offices to fill. All the judges of the State are to be elected, and other important officers to be chosen. So we may look out for a large body of gentlemen coming into the city with the legislators, and sojourning here for a time. They will be considerably interested in the offices, either expecting to be elected or advocating the claims of expectants. We shall have, surely, a lively time.

To the outsider it will be curious to observe the scenes that will take place. The corneering, the button-holing, the complaisance, the perseverance, the penetrating pursuit of the canvassing days, will be beyond all precedent in Richmond. There is a great thirst for office. There are more offices to be filled by the Legislature than at any previous time; but there are also more applicants in proportion to the offices than were ever before known in the Commonwealth. We pity the legislators, we pity Governor Walker. Where will they hide from the office-hunters!

But, then, we would implore the Governor and the Legislature to be kind and indulgent with them. If the pursued are annoyed they may console themselves by the reflection that their pursuers are miserable. Alternations of hope and apprehension will disturb the quiet of all of them; and those hapless persons who fail and who turn their backs upon the city after a fruitless struggle must be inconsolable.

This is the fate of office-hunting. How much better is it for a man to depend upon his own enterprise and energy. This business of looking to the Government till it has blasted the hopes and been the ruin of many capable and good men. It is the source of partisan strife and rancor, the way to disappointment and misfortune.—Happy the man who never looks to public office for occupation or support, or who, if he ever fills a public trust, has it thrust upon him on account of his merits. Among the greatest evils that can befal a man in this country is to become the victim of lust for office—to be a prey to the vicissitudes of party."

[Reported expressly for the SENTINEL by the Deputy Clerk of Supreme Court.]

THE HOMESTEAD EXEMPTION—OPINION OF THE SUPREME COURT.

The following is the opinion of the Supreme Court, in the case of A. A. McKeithan vs James McLeod, from Cumberland, delivered by his Honor Edwin G. Reade, J.:

"The State Constitution provides for the exception of a homestead worth $1,000, and of personal property worth $500, from execution sale for debt. And we have decided that the exemption applies to debts existing before the adoption of the Constitution, Hill vs. Kesler, 63 N. C. R. 437. But in the case under consideration, the execution was *levied* before the adoption of the Constitution; there was, therefore, a specific lien, a vested right, which it was not the purpose of the Constitution to destroy, if indeed it had the power. Mere indebtedness is not a lien upon any property, nor does the homestead destroy the creditor's property in the claim; and therefore, does not *necessarily* impair the obligation of the contract. But it is otherwise where the creditor has acquired a specific lein, as in the case under consideration.

It was the duty of the Sheriff, under the *fa. cs.* in his hands to sell the land which had been levied on, and return the money into Court. And his return of "no property outside of the homestead exemption" was not "a due return," and he was therefore liable to amercement.

It was error in his Honor to refuse the rule moved for the plaintiff. This will be certified, &c."

HAYTIEN REFUGEES.—We learn that several of Salnave's Haytien followers arrived in this city from Charleston Saturday night, and were compelled to lay over here Sunday before they could proceed North. One of them, a yellow priest in a long cassock, excited considerable attention by appearing on the streets.—*Wil. Journal.*

STILL OUTLAWED!!

LEXINGTON, N. C., Jan. 31, 1870.

MR. EDITOR:—We hope that the prescription which we spoke of in our last, as fit for our General Assembly, in the event that they do not do something for the relief of the Physicians of the State—will not be needed, because they seem to be arousing from the lethargy into which they had fallen, and we trust that some of them, at least, are beginning to see the plain and well-defined line of demarkation between right and wrong, justice and injustice, equal rights and gross oppression. Truth is omnipotent and will prevail. "Truth crushed to earth shall rise again," and if we never get our dues in this life, we hope to do so in the next, yet, we would like a *few of them* while "*sojourneying here below.*" "*Veritè sans peur,*" should be the motto of every honest man! and the man who cannot stand up boldly in the defense of truth and justice is no man, but is what we Doctors term a *fungus growth* a *miserable excrescence*, and he will be no more missed when he dies, than a dead hair which falls unnoticed from the sleek hide of a fat horse. We have no use for such men! We want men who have the moral courage and the nerve to act promptly and energetically when they see a *wrong*, which it is their *duty to make right*. Now, sir, it is a fact, evident to every honest, unprejudiced mind, that we physicians are outlawed, and that the present laws are *inert* and *inoperative*, so far as we are concerned, because ours is of necessity, a credit business, and cannot be made a cash business in the present impoverished condition of the country, without leaving nine-tenths of the whole population entirely destitute of medical attention, and as great a proportion of the members of the medical profession without work. This is plain unvarnished truth, which cannot be controverted or gainsayed, and I will tell you another truth which is so plain that "the wayfairing man, though a fool, need not err therein"—a truth now, especially, apparent to the outlawed Doctors of North Carolina. "Tis this, although there are many honorable gentlemen who think it a privilege and conscientious duty to pay their physician, still there is a large class, many of them *just as able*, who will never pay one dime after the services are rendered unless they have a *wholesome fear* of the law. I'll stake my reputation on the truth of this assertion!—And yet public opinion will accuse us of *inhumanity* if we refuse to visit such men. Sir, is it not inhumanity to encourage such men in *dishonesty* and *rascality*, while our own families are wanting bread, clothing, education, and all those refined accomplishments which are *justly due them for our own hard labor*, but which they cannot enjoy simply because we are virtually excluded "left out in the wet?" Oh! the sin, the inhumanity is altogether with those who persist in driving us into such a course by *inefficient laws*.—As long as we are thus outlawed, so long does the Legislature *knowingly* oppress and crush down the educated and scientific physician, and so long does she encourage, countenance and support vice, ignorance and superstition in all of their vile impositions. Pope spoke truly when he said "an honest man's the noblest work of God." If he was still living we could present him with a few specimens of "humani generis" of whom he could not make any such poetical allusions, or if he did we should pronounce him clearly in his dotage. But members of the Legislature say, we'd suggest a plan!—suggest a plan to the law makers whose sworn duty it is to correct all the evils, set to right all the wrongs of the laws, and deal out impartial justice to all men alike!! No Sir we will not stultify ourselves by attempting any such thing! It is their especial *province* and *function* to *provide for*, and protect *every* law abiding citizen and if they are not competent to the task they had be'er "fling up the job" and come home. They may still enjoy their "otium cum dignitate," and we will willingly pay our part of the $7.00 per diem, if they will only do the clean thing by us, and enable us to gain a livelihood, but unless they do, it will be like squeezing blood out of a turnip to get taxes out of us. All we ask is some means for securing fair compensation for the services rendered to men able to pay! We ask nothing but justice, not as Shylocks do we ask it, but as true, honest, loyal and suffering sons of North Carolina, we demand it of the Legislature as the birthright of every North Carolinian and if they will not protect us, we protest against their taxing us; there is no justice in it. One word to our brother physicians, and we are done. Friends and brothers! Ye know too well the story of our thraldom. We are slaves! *unprotected, outlawed*, and *ostracised without cause* by our own loved mother, North Carolina! We have borne this ill treatment for a long time—borne it until our *lankness, leanness, attenuation* and *emaciation* surpasses and eclipses the poverty of that bird of fame about which biographers, historians and scholars have written; better known to all well versed ornithologists as Job's turkey. Doubtless you have heard of the fowl, and know somewhat of its physical condition. *It was bad! Ours is worse!* Gentlemen! you know and feel the absolute truth of what I say, and tho' you say but little, still "like Patience on a monument smiling at grief," you acknowledge and suffer the evil. If the General Assembly *will not help* us what shall we do? I move that we meet in convention in the city of Raleigh, that we all be represented either in person, or by proxy, and that we there enact such laws, rules and regulations for the government of our profession, as are requisite for our protection. We must act in concert—we must take the bit between our teeth, and tho' it be repugnant to our better feelings, if *those in authority* will not shield us, we do not deserve the name of men, if we do not *defend* and *protect* our wives, our children, and ourselves! "Self-preservation is the first law of nature!"

Yours &c.,
M. D.

PERSONAL.—We had the pleasure yesterday of meeting in this city with Gen. M. W. Ransom, of Northampton, and Gen. Robert Ransom, of Wilmington, both looking well and hearty.

LA RUE MINSTRELS, made their *debut* at Tucker Hall last night. The music was good, the singing was good, the fun was fresh, and the manifestations of appreciation vociferous. So far as we could judge, everybody that went was satisfied, and most of them determined to go again, which will be to night, "with an entire change of programme."

THE NEW MARKET HOUSE.—This new city ornament is rapidly drawing to completion. Mr. Thiem, City Treasurer, has just returned from the North, where he purchased the gas fixtures for the building, which have arrived, and, also, the new Clock and Bell, which will be here next week.

Mr. Lankau, of the firm of Lankau and Krueger, Baltimore, has arrived in the city, for the purpose of doing the Fresco painting of the Hall. Soon the windows will all be in and the Building turned over by the contractor to the city.

ELECTION IN ORANGE.—Gov. Holden has issued his proclamation, ordering an election in Orange on the 17th inst., for a member in the House of Commons from that county, to fill the vacancy caused by the resignation of J. J. Allison, Esq.

COUNTY OF DARE.—Gov. Holden has issued his proclamation, appointing the 22nd inst., for the people residing in the territory of the newly erected county of Dare, formed from portions of Currituck, Tyrell and Hyde, to vote *for* or *against* the erection of the new county, as organized by act of the Legislature recently passed.

E HUBBS.—This dealer in green groceries, who helped P. Merwin to smuggle himself out of Newbern, has sent another missile at the rear of humanity, the *Stern* of the *Times*, in the shape of letter, in which he says nothing much, but what he does say, convinces us that he *was* a member of that regiment spoken of by Stanley, who stole $40,000 worth of property in Eastern North Carolina, and we have no doubt that Hubbs, (if that be his real name, which is doubtful,) got his full share. Good-bye *Hubbs*.

PLOWS.—We learn that Mitchell, Allen & Co., of Newbern, N. C., have procurred Steel Cotton Sweeps, made from the original patterns of David Dixon, Esq., of Georgia, they charge $5 for each, when stocked $7.

This firm is selling a large quantity of plows manufactured by themselves. They sell No. A. 6, 10, 11, and 50 plows at 2.50. Would it not be well for farmers to club in each neighborhood, and order together so as to get the freight cheap. Mitchell, Allen & Co., have the agency for the Foster Cotton Planters, and every variety of agricultural implemements. d1m

PROF. MCWATT, Lecturer and operator on boot-and-shoeology, has removed his office and lecture room, *alias*, shoe shop, to the room over Messrs. W. B. Hutchings & Co's., Harness establishment, where he is prepared to take measures and put up shoes, boots, gaiters &c., in quality and workmanship unsurpassed in this region.—Let those who may doubt this give him a call and they will be convinced; those who do not dount it will, of course, call any how. jan 27 d1w.

A Healthy Digestion.

Life is rendered miserable when the digestive organs are impaired. Food becomes repulsive; the body emaciated; the mind depressed, and melancholy broods over you. A Favorable Notoriety.—The good reputation and extended use of "*Brow 's Bronchial Troches*" for Coughs, Colds and Throat Diseases has caused the Troches to be extensively imitated. Obtain only the *genuine* "Brown's Bronchial Troches" and do not be influenced by those who wake more profit by selling worthless imitations.

jan 30-eod1w

BAD MANAGEMENT.—When a man undertakes to do a thing, he ought to *do* it, and when he don't he ought not to pretend to it. We understand that the Post Masters at Auburn in Wake, and Clayton in Johnston county, refuse to give and receive mails at the train going east from Raleigh, hence, all matter for those offices goes to Goldsboro and lies over until the next night. Our Daily subscribers at those offices are complaining at this, and, we think, very justly. It is a pretty affair when a man subscribes for a Daily paper and can't get it, within ten miles of the office of publication, until it is two days old, and a mail running right by him within two hours after it is issued. If there is not a change in this matter we shall be under the necessity of taking further steps in regard to it. It must be remedied.

PROF. S. ADAMS LEE.—This gentleman, whose lecture on Monday night was postponed on account of the gale of wind and rain which came up about the time of opening, was greeted by a good audience on Tuesday night, and proceeded to deliver his lecture on the "Battle of Hampton Roads,"—all of which he saw, and a part of which he was," to the unbounded gratification of those present.

The audience, however, was not as large as it ought to have been. Our people are not much of a Lecture-going race, but Prof. Lee may congratulate himself on the fact that he can draw larger audiences than almost any other Lecturer that has recently come among us. He has made a most favorable impression on our community, both as a Lecturer and a high toned gentleman.

THE FINEST YET.—The most superb specimen of architecture in the State, (or will be, when completed,) is B. P. Williamson's new store, N. E. corner Fayetteville and Martin streets; designed by Appleget, and built by Mr. T. Briggs, Architect and builder of this city, the work conducted under the immediate foremanship of Mr. Henry Keith.

Clawson has been "putting on the pretty," in his best style, and yesterday the scaffolding was taken down, affording a better view of the building, and attracting the attention of all passers by. We shall make a more critical notice of it, when completed.

For the Sentinel.

ORANGE CO., N. C., Feb. 1, 1870.

Editor of Sentinel:—I see your paper of to day, announces that the bill to re-endow the University of North Carolina is made the special order for the day on Thursday next.

As one of the tax payers of the State, I ask what this institution is to be re-endowed for, while the common school system of the State lies prosprate and no provision is being made for the poor white children? I say nothing of the poor colored children, though I am equally willing they should be cared for, because their schools are going on by charitable aid from the North. What is the sum of $400,000 wanted for at Chapel Hill? They already have $15,000 a year to spend among that set of ex-negro teachers and scalawags, how much more do these gentry want? The Ex-Com. of the Board of Trustees have put in another negro teacher, an English Quaker, who like Brewer, made his entry on the stage of action a negro philanthropist. He came over some three years ago, commissioned by the charitable Quakers of England, and accredited to the Philadelphia Quakers and sent out to North Carolina by them to oversee the negro schools they had established here. He was as green a specimen of a fresh-caught John Bull, three years ago, as I ever met, more ignorant of the people he had come among than semi educated Englishmen usually are. He married one of the schoolma'ams round Greensboro, and has been hoisted into a Professorship without anybody's knowing how, or why, or its being ever understood that a Professorship was vacant. Who elected him and on what grounds?

He and Prof. McIver, I am given to understand by a resident of Chapel Hill, proposed to cut down the grove back of the College buildings, and to convert the ground into a farm which is to be a model for the rest of us. They have serveyed 100 acres and are contracting to have the timber felled at once.

I should like to know upon what authority they are acting. Is it the pleasure of the Board of Trustees of the University that the property of the institution shall be put to such uses at present? And is the sum of $400,000 demanded to set this Quaker's farm a going and keep it going for a model? They have 15 boys from abroad up here. Not ten of these are fit to be in College.—There are 30 in all. Most of these day-scholars I am told, button their breeches to their jackets. Never mind, they will count and Mr. Pool can hump them all as "young men" in his next voracious report. I observe in this one just issued he points out with pride the orderly behaviour of these young gentlemen during last session. I ask him, and call the attention of the members of the Legislature and the Trustees, to the query, Who was it kicked down the doors of the archive rooms of both the Di. and Phi. Societies and entered and scattered and destroyed their private papers? Was it one of Mr. Pool's young gentlemen or not? The son of an ex negro teacher or not? and is he now at Chapel Hill or not? I say to the old members of the Dialectic and Philanthropic Societies, that these things are so.

Three ex-negro teachers are sitting among the Faculty at Chapel Hill, and of the other three if there is one who looks like a Professor, or even like a gentleman, I have not yet beheld him.

Is the Legislature going to appropriate $400,000 to support this monstrous imposition of fraud and swindling movement of lolly and meanness, that has already $15,000 a year in its hands, while the children of our dead soldiers are running about without the means to buy a blue-spelling book, or provision made to teach them if they had one. ORANGE COUNTY.

ATTEMPT TO BREAK JAIL.—Saturday night the prisoners confined in the cell in the jail immediately above the debtors' room, assisted by those in that room, succeeded in cutting and burning a hole through the floor and were in a fair way to escape when they were discovered by the jailor, Mr. Hoose, who fired upon them, the shot taking effect in the foot of a colored prisoner inflicting a slight wound.—*Charlotte Observer.*

NOTICE OF APPLICATION.

Notice is hereby given that application will be made to the Legislature now in session, for an Act to incorporate the People's Building and Loan Association, of the City of Raleigh.

January 1870.

MARRIED.

In this City on Wednesday evening 2nd. inst., at the residence of the late Eldridge Smith, by the Rev. Dr. Pritchard, Mr. GEORGE C. UPCHURCH to Miss DORA H. SMITH.

On the 26th of January, 1870, at the residence of Dr. M. F. Waddell in Stanly county, N. C., by Rev. J. W. Pastl, Mr. ARCHIE STACEY ATKINS, son of the Rev. A. F. Atkins to Miss CORNELIA LILLY, daugeter of the late David C. Lilly, deceased.

DIED.

At his residence in Caswell county N. C., on Thursday night the 20th of January 1870, after a short but painful affliction, ELIJAH K. WITHERS, Esq., in the 67th year of his age.

Truely a good and most useful man has been removed from earth. He was generous and hospitable, a friend to the poor, such was his benevolence that he could not be satisfied to see any of his neighbors in want without a charitable effort to relieve them. He was for a great number of years a consistent member of the Primitive Baptist Church, was a leader in all the religious and benevolent movements of his own branch of the Church, obeyed strictly the christian obligation to visit the widow and the orphan and to administer to the sick, he was highly esteemed by all who knew him, was a man of sterling integrity, popular in his native county, as an evidence of the fact he was several times elected a member of the State Legislature, at a time when it was an honor to be a member of that deliberative body. He will be greatly missed not only by his family but by the church and his whole neighborhood and especially by the afflicted and needy. He was a devoted husband, a fond parent and good neighbor, he has left a beloved wife and several children and grand-children as well as a large circle of friends to mourn their irreparable loss, "but they mourn not as those who have no hope, for their loss is his eternal gain, for he died as he had lived with his faith and trust strong and unwavering in the Saviour whom he had been so long serving. "Blessed are they that die in the Lord." May our Heavenly Father who can bind up the broken heart administer an abundance of His grace and consolation to the bereaved wife and children, and may all his children be brought to know and serve their father's God. A FRIEND.

TELEGRAPHIC.

Tuesday Night Dispatches.

WASHINGTON.

WASHINGTON, Feb. 1—Revenue to-day $684,00[illegible].

HOUSE.—Bocks from Virginia was seated after a sharp contest.

The Tariff bill was reported. Schenck explained that the bill was merely amendatory of the former bill. It converts *ad valoroms* into specific duties whenever possible. Also, very much enlarged free list mainly on raw material, entering into manufactures. The committee endeavored to keep in mind three things; revenue, protection and compensation.

Brooks in opposing the bill said: The reduction in the bill had been ingeniously made upon mere revenue articles, such as tea, coffee, sugar, brandy, spices, liquors, &c., thus reducing the revenue in order to have an excuse for raising the duty on iron, steel, jute, carpeting and even on old type. But whatever was not done in the bill was far more censurable than what was done. The objectionable duce stood upon coal, salt, lead lumber, hides &c. Finally after much squabbling the bill was ordered to be printed and made the special order for Tuesday the 15th. The House considered the appropriation to close.

SENATE.—Ramsey presented and advocated a resolution which was adopted looking mediation of the United States for settlement of difficulties between Canada and the people of Winnipeg territory.

Senators Lewis and Johnson of Virginia were assigned post ions on standing Com mittees.

Anthony introduced a bill to discontinue the publication of books by the general government for popular distribution, to dispense with newspaper publications of laws except those of general value.

A joint resolution was introduced by Conkling declaring the State of Mississippi entitled to representation in Congress.

The Currency Bill was amended by increasing the proposed additional volume of circulating notes from 45 to 65,000,000.

An amendment by Saulsbery, to repeal the ten per cent tax upon State Bank issue, imposed in 1864, was voted down.

FROM PENNSYLVANIA.

HARRISBURG, Feb. 1st, P. M.—The Metropolitan Police Bill for Philadelphia, passed the senate to-day.

Wednesday Evening Dispatches.

WASHINGTON.

WASHINGTON, Feb. 2.—It is stated that Sherman telegraphs to-day by order of the President, that the senatorial elections of Hill and Miller are regarded here as legitimate. The effect of this order is to forbid the Legislature electing other Senators. Georgia affairs are having serious consideration in high Executive and leading Senatorial quarters, but nothing is absolutely known. Principal persons decline authenticating rumors, or authorizing any publication.

In the House after private bills were discussed, the subject of the Fenian prisoners in Great Britain was taken up, and a very warm debate was progressing thereon.

Nothing of importance in the Senate.

HENRY'S CARBOLIC CONSTITUTION RENOVATOR, OR BLOOD CLEANSER.

This medicine is known to the faculty as being the concentrated fluid extract of Sarsaparilla united with other valuable medicinal herbs, and is guaranteed as chemically pure.

And THE CURE OF

SCROFULA AND CONSUMPTION.

This remedy is compounded expressly for purifying and cleansing the blood of all infirmities, going at once to the fountain-head of disease. It extinguishes

Tumors, Consumption, Syphilis, Skin Eruptions Salt Rheum, Boils, Rheumatism, Waste of Vitality, Scrofula.

We all know that the promiscuous vaccination indulged in during the late war bred the most villanous diseases. Vaccination pus was taken from the arms of many persons full of scrofulous sores.

Then of course the impurities of the scrofulous patient were absorbed in the blood of men otherwise without diseases, and both became infected alike. Men, women and children throughout all the West are most woefully diseased from this cause, and know not, until a few months ago, the origin of it.

Henry's Constitution Renovator

Relieves the Entire System of Pain and aches, enlivens the spirits, and sends new blood

BOUNDING THROUGH EVERY VEIN.

It imparties a

Sparkling Brightness to the Eye, A Rosy Glow to the Cheek, A Ruby Tinge to the Lips, A Clearness to the Head, Brightness to the Complexion, Buoyancy to the Spirits, And Happiness on all sides.

For all affections of the kindneys it is unsurpassed.

People have been rescued, as it were, from the very jaws of death, by a timely use of this great remedy.

EXTRACTS FROM VARIOUS LETTERS.

"Doctor, I was vaccinated in the hospital.—Before that I had no skin disease. Until I had a bottle of your "Constitution Renovator" sent me by Mr. Roper, of Columbus, Mo., I suffered tortures with running sores. Since I used two bottles I am all well except a small sore on the calf of my left leg, and that is getting well fast."

This from a lady.—"And now my skin is as clear and fair as a babe's. My complexion, thanks to your "Renovator," is beautiful.

"Yes yes, I may well say such relief was unknown to me before. Enclosed find five dollars for six bottles; two families here want to try it."

"I was very much troubled with syphilis.—Your remedy seems to be curing me fast. Send 4 bottles per Express."

"No more rheumatism. Three bottles of Constitution Renovator have made me a new man."

"Doctor, enclosed find $5. Please send me a supply. Two families here want to try your Constitution Renovator."

We have not space for more of the above extracts, but you can ask your neighbor about the remedy. Every one has something good to say, as it cures every time.

FOR ALL DISEASES OF THE
KIDNEYS, RETENTION OF THE URINE, &c
And for Female Diseases,
Nervous Prostration, Weakness, General Lassitude, and Want of Appetite, it is unsurpassed.

CAUTION!—In ordering our remedy always place the number of our Post Office Box on your letters. The new law in our New York Post-Office compels this.

PRATT'S
"ASTRAL" OIL.

UNLIKE MANY OTHER ILLUMINATING Oils, is *perfectly pure*, and free from all adulterations or mixtures of any kind. It emits no offensive smell while burning, gives a soft and brilliant light, and can be used with the same assurance of safety as gas. Chemists pronounce it the *best* and *safest* Illuminating Oil ever offered to the public; and Insurance Companies indorse and urge upon consumers the use of the "Astral" Oil in preference to any other. It is now burned by thousands of families, and in no instance has any accident occurred from its use; a lamp filled with it, if upset and broken, will not explode. *To prevent adulteration*, the "Astral" Oil is packed only in the Guaranty Patent Cans, of 1 gallon and 5 gallons each, and each can is sealed in a manner that cannot be counterfeited. Every package with uncut seal we warrant. Be sure and get none but the genuine article, Pratt's "Astral" Oil, for sale by dealers everywhere, and at wholesale and retail by the proprietors

This article is much superior to the Peruvian Guano as a fertilizer. It contains a much larger percentage of *bone phosphate* and soda, and nearly as much Ammonia, its effects upon the land will be seen for years.

The following extracts from certificates received from those who used it last year upon Cotton will have the effect to remove the prejudice produced by the use of manufactured fertilizers, and give confidence in this home made article.

H. Lederman, Esq., of Bertie county N. C., writes: "I have used your Phosphate Fish Guano in equal quantities side by side with Peruvian Guano and found the product much in favor of your article, the weed was larger, Cotton heavier and the plant kept green through the dry Summer."

J. J. Horton of same State, writes to the same import. Our Circular for January 1870, contains these and other certificates in full.

A NEW DISCOVERY!!

PHALON'S

"VITALIA;"

OR,

Salvation for the Hair.

CLEAR AS WATER!
WITHOUT SEDIMENT!!
OPEN TO THE LIGHT!!!

For Restoring to Gray Hair its Original Color.

PHALON'S "VITALIA" differs utterly from all the hair coloring preparations heretofore used. It is limpid, sweet smelling, precipitates no muddy or slimy matter, requires no shaking, imparts no stain to the skin. Hold it to the light and it is clear and cloudless. It leaves no mark on the scalp; yet it reproduces in gray hair the natural color that time or sickness may have bleached out of it.

☞ Phalon's Vitalia ☜

is for one sole purpose, that of reproducing, with absolute certainty, the natural color of the hair. It is not intended as a daily dressing, nor for removing scurf or dandruff; nor for curing baldness; nor for stimulating the growth of the hair.—These objects may be accomplished after the color has been fixed with the Vitalia, by Phalon's Chemical Hair Invigorator.

THE VITALIA is a harmless and unequaled preparation for the reproduction of the original hue of gray hair, and nothing else. This is accomplished in from two to ten applications, according to the depth of shade required. Sold by all druggists.

The Stock of this Company is owned by the Capitalists of Louisville, Ky., and St. Louis, Mo. It is emphatically a Western and Southern Institution.

The DE SOTO has no desire to exalt its merits over those of other good Companies, nor to prosper on the decline of others, laboring in the same fields, and for the same grand object. Confident of its equal advantages with others, of whatever age or standing, it is willing to labor honorably for success, and hopes to deserve the public confidence by its energy, industry, and liberal spirit.

From the Missouri Republican.

"Few Companies have started out with such gratifying and flattering prospects of success, and under such favorable auspices. The Company has been extremely fortunate in the selection of its Directory. Its President, James H. Lucas, needs not a word of commendation from us. He enjoys a general reputation as a gentleman of wealth, unquestioned integrity, practical good sense, sound judgment and splendid business capacity.

The Directors rank among the first class of our merchants, bankers and citizens, as men of capital, financial ability and experience; men of probity and unblemished reputation. In the character of such a Directory, the community have the best guarantee that the business of the Company will be prudently and judiciously managed."

Policies issued on all the popular plans and all Non-Forfeiting.

Policy-holders may travel by the usual modes of conveyance, either by land, river, lake or coastwise, in any portion of the United States and Territories, the settled portions of the two Canadas, Nova Scotia and New Brunswick, and in time of peace may cross and recross the Atlantic Ocean by the usual passenger routes to, and travel and reside within, any portion of Europe.

And $5,000 ready to pay a loss of No. 34,161, so soon as the party authorized to receive the money appears.

The Company has been well tested throughout the State, as to its promptness in paying her losses, reliability, &c.

DIVIDENDS PAID AT THE END OF THE FIRST YEAR, AND ANNUALLY THEREAFTER.

Its ratio of expense to income is extremely low. This may be seen by reference to the Official Reports for 1868. For example:

EXPENSE ON THE $100 RECEIVED.

Knickerbocker,	$16,54
Equitable,	17,44
North America,	21,16
Brooklyn,	21,09
Universal,	27,24
John Hancock,	18,27
The National,	63,48
The Ætna,	13,41

It has an IMPORTANT NEW FEATURE that has been copy-righted. According to this plan the rates are MUCH LOWER than in any other Company in the world.

Its ratio of Mortality is low. Its rates are very low. Its expenses are very low. Its dividends are large.

It insured more lives in the City of New York in 1868, than any other Company, except one. It issued more Policies in the United States than any other save one. It insured more lives in Canada than any other Company, British or American.

See what the HIGHEST INSURANCE AUTHORITY in this country says. In the June number of the *Insurance Times*, of New York, the following opinion was expressed:

"If there is any great benefit in mutual association, any great advantage to be derived from scientific organization and a chartered source, tending to mitigate the sufferings, lessen the privations, and add to the peace, security, and happiness of humanity, we are prepared to show that these blessings flow, in all their fullness and purity, from this excellent, powerful, and flourishing Company, the ÆTNA LIFE, of Hartford."

"No institution has brought more prompt, full, and grateful relief to the hearths of the bereaved and desolate, and none has been more uniformly distinguished for the enterprise, wisdom, and equitable liberality with which it has fulfilled the purposes of its formation."

"Its success has been almost unbounded and beyond all precedent. Eight years ago, in 1861, it issued only 580 policies, received an income of seventy-eight thousand dollars, and possessed net assets summing up to something over two hundred and eighty-one thousand dollars; but last year, 1868, it granted 13,537 new policies, more than any other Company, except the Mutual Life; received an income exceeding six million dollars, and had amassed solid, securely and profitably invested net assets amounting to over Ten Million Three Hundred and Fifty Thousand Dollars. And this wonderful ratio of growth has been sustained in 1869."
